

Nathan Jurczyk of SBGA, A merchant services firm introduces business management solutions for small business.

1888 Press Release - Nathan Jurczyk, merchant services company SBGA integrates new business management systems to help streamline payroll for small businesses. Nathan Jurczyk of Small Business Growth Alliance makes payroll easy!

The Small Business Growth Alliance (SBGA) has helped hundreds of businesses nationwide cut their payroll costs on average by \$1,900 a year over other third party providers while simultaneously simplifying their payroll process down to a few simple clicks. Now, using SBGA's business management solution, members can make their payroll process even simpler.

By downloading one of the many time keeping apps available on the business management solution app market, members can have their employees clock in and out of work directly through the system using their PIN access code. Time keeping apps automatically calculate hourly wages per employee, as well as breaks and overtime. Depending on what the business needs, different levels of time keeping apps can be installed to expand their business management solution system functionality - from basic time tracking to work schedule creation to deep analysis on wages versus sales. In some apps, employers can even receive text message notifications when their employees are about to miss a break or go into overtime.

When it is time for the business to run payroll, the business owner simply exports the time clock information from the business management solution and imports it into SBGA Payroll Services. For most of the time clocks available, importing data to SBGA Payroll Services automatically populates all of the necessary employee information to run payroll. From there, all a business owner has to do is review their wages, submit payroll, and pay their employees by printing out paychecks or opting into free direct deposit.

"The main comment we hear from business owners is that they're always busy," explained Nathan Jurczyk, Vice President of SBGA. "We try to accommodate them by offering programs and services that fit seamlessly into their busy schedules. The less they have to do - especially when it comes to payroll - the more they can focus on growing their business."

In 2014, SBGA was honored with the title of Top Payroll Distribution Partner by their payroll association provider. Members that are enrolled in SBGA Payroll Services enjoy the simplicity and control that SBGA Payroll Services offers to their business.

About the Small Business Growth Alliance
